

Our Work is People Work

We help socially conscious organizations break out of the status quo and find their "third way".

Joyedele Consulting

Joyedele Consulting supports organizations with culture and change at every level of the organizational ecosystem. We use a whole systems approach to support our clients with designing work environments where creativity and collaboration flourish. Our approach to this work combines human centered design, the psychology of behavior change, and the principles of inclusion, diversity, equity, accessibility, and social justice (IDEAS). We help our clients have the conversations that matter.

Our mission is to bring joy to the change process.

Our Values

BOUNDARIES

We say and listen to what's okay and what's not okay, what's possible and what's not.

CLARITY

We communicate and ask about expectations up front and throughout.

CO-CREATION

We achieve outcomes with you, not despite you.

GENEROSITY

We extend the most generous interpretation to the intentions, words, and actions of others.

Company Info.
